

Training

Developing the skills
of your teams safely

Risk prevention
and safety at work

BUSINESS ACTIVITIES

Developing your teams' health and safety skills, a key investment to improve performance

Our teaching methods adapted to meet your needs

Your challenges

- Meeting your legal obligations for safety training related to your sector of activity.
- Developing your teams' skills better to prevent and control risks following INRS/CNAMTS recommendations.
- Supporting the emergence of new jobs and promoting in-house mobility to meet your company's needs in terms of professions facing recruitment difficulties.
- Benefiting from teaching methods adapted to your expectations and to those of your teams to encourage learning and the sustainability of professional practices, guaranteeing the highest level of safety.
- Helping to prevent risks in the workplace by implementing training courses that are relevant and beneficial to your teams, thus developing your employer brand.
- Outsourcing the organisation and management of your training plan for greater efficiency.

Certification of skills

Apave offers qualifying and certifying courses, pragmatic with workplace simulations. These training courses meet your needs in professions facing recruitment difficulties: line operators, welders, electricians, maintenance technicians, etc. and in your emerging professions: installers of electric charging stations, cobotics, etc. These certification courses recognise employees' skills and abilities to perform their professions safely, such as the certification of boiler room conductors, versatile maintenance technician certification, industrial maintenance PQC, professional qualifications, etc.

Digital learning

Training is an area that has evolved greatly in recent years, and the global pandemic has accelerated digital practices. Health and Safety training is being revamped and now offers courses combining virtual reality, virtual classes, e-learning and classroom practical sessions. Apave develops bespoke approaches using know-how developed by its subsidiary, WeUp Learning, a digital studio, which can design unique and personalised digital courses with you and your business teams.

Our teaching resources

- Our 145 centres in France and 25 international centres are equipped with technical rooms and platforms dedicated to practical exercises.
- 28 Cefri-approved nuclear school sites.
- 70 CACES® platforms.
- 121 electricity/electrotechnical platforms.
- 75 high-level working platforms.
- 46 asbestos prevention platforms.
- 16 welding schools.

Local facilities

Our 145 training centres in France and 25 international centres ensure a very close relationship with you to facilitate the planning and logistical management of training courses. Trainees are welcomed under the best conditions and experiment under actual working conditions, teaching related to the training followed by practical work.

The field trainer: a unique model

Our trainers are all Apave employees and are regularly trained to develop their teaching practices and ensure a uniform level of support for our customers.

The trainer's pragmatic approach will be adapted to your needs using knowledge of your actual situation, your equipment and your environment.

The Apave Group in brief

Our job consists of enabling our customers to do theirs safely.

Apave is an international group specialising in risk management with more than 150 years' experience. Our 12,650 employees work at the request of our customers, on regulatory or non-regulatory assignments related to risk management. Apave offers services and expertise in 5 areas: Inspection, Training, Testing & Measurements, Certification and Labelling, Consulting and Technical Support. Whether for individual safety, site safety and compliance, environmental safety or digital security, Apave continues to fulfil its purpose as a trusted third party to its customers.

“ Acting as trusted partner to make the world safer, more sustainable and source of shared progress “ this is Apave's corporate purpose.

Unique experience

French leader in risk prevention and occupational safety training, Apave has developed unique know-how, supported by a field trainer model whereby our trainers have detailed knowledge of the reality out in the field thanks to their twofold skills.

At one of our 145 training centres in France and 25 international centres, near to you, give your teams a unique training experience, combining practical application and distance learning to create an immersive experience.

Why choose Apave?

- **A broad offer:** safety training courses on a wide range (electricity, handling, first aid, radiation protection, nuclear).
- **A standard digital offer** for all the most requested safety training courses and customised with our subsidiary, WeUp Learning, a digital studio
- **Certifying training courses** in professions facing recruitment difficulties or emerging jobs: pragmatic courses with many practical sessions to ensure skills are fully acquired.
- **A network of 145 training centres in France and 25 international centres:** means that trainees don't have to travel too far for classroom training sessions.
- **Learners are the focus of the method** with enhanced resources, increasing their commitment and ensuring the knowledge is lastingly acquired: 80% of our training is active.
